- What is technology ?
- Types of technology.
- Advantages and disadvantages of technology ?

Lifewire

- 

## what is technology ?

Technology is the application of scientific knowledge to the practical aims of human life or, as it is sometimes phrased, to the change and better the human environment.

## advantages of technology ?

It allows us to do more with less

It provides us with deeper insights

Increased Job Opportunities

## different types of technology .

Construction technology. | Manufacturing technology.

Medical technology. | Energy power technology.

Transportation technology. | Agriculture and bio technology.

## disadvantages of technology ?

it leads to health problems

It makes people Lazy, which leads to obesity

Excessive surveillance

## conclusion

- In conclusion, there are numerous benefits from technology, in the past we couldn't warm our food without making a fire but now life is way simple.
- The positive effects of technology on society has only brought progress and allowed us to reach heights like never before.
- so basically without technology, we are left dead
